About the artist

I was introduced to music very early, and started composing music in my teens. I have a keen interest in helping other musicians get better through Music Theory and education.

I will never upload a MIDI file, as MIDI playback depends on the user's MIDI library. The default libraries on Windows and Linux aren't good (I don't know about Mac). I prefer to upload MP3 files only.

I would also like to remind people to be very careful when responding to email. I received an email through free-scores.com. I thought it was OK until the offer was made to "receive my monies into your account, and you will receive 10%". I just want to warn others about scams like this.
